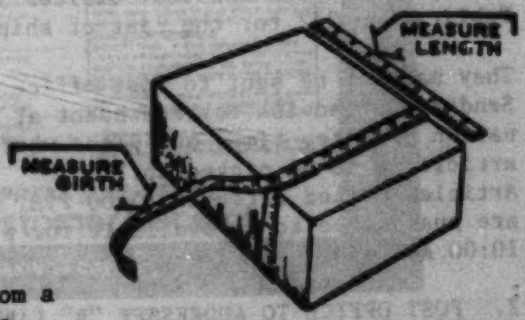
INTRODUCTION TO EXPRESS MAIL NEXT DAY SERVICE

EXPRESS MAIL Next Day Service offers customers, businesses, and individuals alike, a reliable overnight service between designated cities. Post Office to Post Office and Post Office to Addressee service is available at designated offices. Any mailable item can be sent via EXPRESS MAIL.

HOW TO SEND EXPRESS MAIL

Use this directory to determine if the destination can be reached overnight from your city. Please note the 1:00 P.M. and 5:00 P.M. mailing times.

Prepare your shipment for mailing in an envelope or other container, which is large enough to hold the EXPRESS MAIL address label and the postage. Recommended minimum size is 6" x 10". Ask for our EXPRESS MAIL envelopes for your mailings. Individual shipments must not weigh more than 70 pounds, nor be more than 108 inches in length and girth combined.



Take your shipment to an EXPRESS MAIL acceptance facility by 1:00 P.M., 5:00 P.M. or 7:30 P.M. at the Main Post Office.

Obtain an EXPRESS MAIL mailing label from a window clerk (Post Office to Post Office "A" label or Post Office to Addressee "B" label). Complete the address portion of the label. Peel off the backing, affix the label, and mail at a service window. You can obtain a supply of labels and envelopes from the clerk so that, for future shipments, you can fill them out before going to the Post Office. For large quantities of labels and envelopes call 349-4718.

Pickup service is available on a regularly scheduled basis. Call your Customer Service Representative or the EXPRESS MAIL Office at 349-4718 for details.

EXPRESS MAIL RESHIPMENT SERVICE

If you need to transport Post Office Box addressed mail from one location to another fast, we will pick up your box mail and reship it to your ultimate destination via EXPRESS MAIL.

Here's how EXPRESS MAIL Reshipment works:

Simply establish a trust account to pay for the service, rent a Post Office Box and/or pay a *Caller Service fee.

Tell the Postal Service where and when you want your mail reshipped.

You and the Postal Service determine the fastest, most appropriate level of EXPRESS MAIL for your needs and sign an agreement specifying the terms of the service.

You instruct your customers to send your mail to the box address. The Postal Service reships your box mail as specified in the agreement to the ultimate destination.

Now you can receive unprocessed film, customer orders, customer payments, cancelled checks, or any high priority shipments, within two days or less from anywhere in the country.

Note: Applies to all mail except signature mail (registered, certified, insured, or C.O.D.)

*Caller Service is a postal service for customers who normally receive more mail than can be put into a Post Office Box.

EXPRESS MAIL DROP SHIPMENT SERVICE

Drop Shipment is a service in which customers ship other classes of mail by EXPRESS MAIL Service to distant post offices. There the EXPRESS MAIL pouch is opened and the contents processed by postal employees, who enter it into the mailstream for normal delivery. Customers receive exceptional delivery service because the EXPRESS MAIL pouch saves valuable time. Your shipment by-passes normal processing steps and is streamlined directly to the destination office.

Who uses EXPRESS MAIL Drop Shipment?

Direct mailers use Drop Shipment of Third-Class Mail to meet tight schedules of sales announcements.

Publishers drop ship time sensitive newsletters and heavier publications to special recipients, such as advertisers and government officials.

Large national firms drop ship payrolls, sales information, price changes and claim settlements to distant branches.

Either Reshipment or Drop Shipment Service can be useful on their own, but when combined, the benefits more than double. The combined services are attractive to numerous businesses, for example:

Photo Processing firms reship unexposed film from the Post Office Box to their labs and drop ship the processed prints to destination areas.

Credit Card companies reship requests for payments from participating members and drop ship the process prints to destination areas.

Mail Order firms combine both services by reshipping orders received at their box addresses around the country directly to their warehouse, then drop ship the merchandise to destination cities and towns.
